

AGRICULTURE ENGINEERING

1. “PROMOTION OF AGRICULTURAL MECHANIZATION FOR IN-SITU MANAGEMENT OF CROP RESIDUE IN THE STATES OF PUNJAB, HARYANA, UTTAR PRADESH AND NCT OF DELHI”

This scheme is 100% sponsored by Govt of India. Till date a total of 72777 in situ management machines has been provided to the farmers at 50% to 80% subsidy. Out of these 31446 machines in 6775 custom hiring center have been established on 80% subsidy ensuring availability of these machines to small and marginal farmers. Farmers are aware with the help of village level, block level camp, social media, motto writing competition, community level pledge programme, puppet show, Soochna rath. Farmers are trained for crop residue management and operation and maintenance of agricultural machines along with providing demonstration of agriculture machines at Farmers field. Farmers are aware for crop residue management and not burning of crop residue by erecting hoardings/ banners in prominent places. Detail of the machines provided during the last three years is as under: -

Fin in Crores of Rs.

S. No	Components	2018-19		2019-20		2020-21		2021-22		Total	
		Phy	Fin	Phy	Fin	Phy	Fin	Phy	Fin	Phy	Fin
a	CHCs	1194	74.31	1685	97.86	1345	53.80	2551	102.04	6775	328.01
b	Individual	3549	16.87	5228	24.93	23712	143.92	8842	72.55	41331	258.27
Total 72777 CRM Machines provided (31446 machinery under 6775 CHCs + 41331 Individual)										586.28	

As a result of the coordinated efforts made by State Govt, there has been reduction in incidents of stubble burning, the details are as under: -

AFL Report received from HARSAC from 1st Oct. to 30th Nov.	2020	2021	% Reduction w.r.t 2020
	9898	6987	30%

2. SUB-MISSION ON AGRICULTURAL MECHANIZATION

For promotion of agricultural mechanization Govt of India is implementing a scheme namely **SUB-MISSION ON AGRICULTURAL MECHANIZATION** (SMAM). This scheme is Centrally sponsored scheme in the ratio of 60:40 i.e. 60% funds are provided by Govt of India and 40% is borne by State. Under the scheme there is a provision of 40-50% subsidy on purchase of latest/advanced agriculture machines by individual beneficiaries. In addition to this, there is

provision of providing 40% subsidy for establishment of High-tech center and 80% subsidy on village level machinery bank. The proposal amounting to Rs. 195.40cr has already been submitted to Govt of India for its approval and release of funds during the year 2021-22. On receipt of approval scheme will be implemented accordingly.

3. State Plan Scheme for Management of Crop Residue

Under the scheme there is provision of providing incentive Rs. @1000/acre for management of crop residue by making bales. Subsidy claim amounting to Rs. 25.41 cr has been received in the State during the year 2021-22 for incentive on paddy straw by product for management of crop residue.

4. Installation of Tube well

Tube well is assured source of irrigation, considering the importance of this, free of cost consultation services provided to the farmers for installation. It includes help in installing new tube wells and development of existing tube well for increasing discharge of water. This work is performed with the help of Department owned machines at nominal rates.

5. Leveling farmers field by using Laser Land leveller

State of Haryana is one of the leading States in the country, which is encourages leveling the fields by latest technology. Under this programme, Departmental owned machines (laser land leveler) is provided to the farmer at reasonable rates. By using this machine, upto 30% of irrigation water is saved and yield is also increasing.

6. New National Biogas Organic Manure Programme (NNBOMP)

In the State biogas plants are installed under the New National biogas Organic Manure Programme (NNBOMP) scheme. Under the scheme Govt of India is providing funds for providing subsidy on installation of biogas plants, providing trainings in creating awareness.

Pattern of assistance under NNBOMP scheme: -

Sr. No.	Category	1 Cum	2-6 Cum
1	Gen	7500/-	12000/-
2	SC	10,000/-	13000/-
